

MICROTECHNOLOGY

MICRODUCT LOCATABLE

- ▶ Locatable MicroDuct drop
- ▶ Multiple sizes to accommodate a wide variety of fiber cables from 1.2mm - 11mm OD and select flat drops
- ▶ Larger sizes to fit pre-connectorized drops
- ▶ Ruggedized with oversheath for harsh conditions
- ▶ Available in continuous lengths to facilitate placement
- ▶ Permanent SILICORE ULF® lining to reduce friction and ease drop placement

INSTALLATIONS

Plow
Trench
Directional Bore
MicroTrench

SIZE RANGE AVAILABLE (OD/ID MM)

7/4	12.7/10	18/14
8.5/6	14/10	22/16
12.7/8	16/12	27/20

STANDARD COLORS

Custom Colors Available

STANDARD

SPECIFICATIONS/DETAILS MicroDucts are smaller diameter conduit, manufactured from flexible HDPE (High Density Polyethylene). Includes a 20 AWG insulated copper wire

FILL RATIO Choose the correct MicroDuct size based on the Outer Diameter (OD) of desired MicroCable. Dura-Line recommends a fill ratio of 50% to 75% for optimal cable placement performance. Several factors impact jetting distance including the condition of route, bends, and equipment.

CONDUIT MARKINGS Permanent marking along MicroDuct includes: material, relevant standards, production info, and sequential feet or meter markings. Custom options available.

CO-EXTRUDED LINING SILICORE® ULF (Ultra-Low Friction) is co-extruded inside the HDPE wall creating a slick, permanent, interior lining. SILICORE® ULF exhibits no loss in performance over time or in extreme temperature conditions.

INTERNAL RIBS Standard (except 3.5mm ID which are designed with a standard smooth interior)

RIP CORDS For easy opening of the oversheath

OPTIONS

PRE-INSTALLED STRING Factory pre-installed Pull String available in MicroDucts to aid in cable placement.

PRE-INSTALLED FIBER Fiber cable or cordage can be factory pre-installed in MicroDucts
